

December 2, 2014

Austin, Texas – Texas Public Safety Broadband Program (TxPSBP) today announced the first state public safety broadband webinar directed primarily to private sector stakeholders. The webinar will be held on December 17, 2014 at 11:00 am and will discuss FirstNet and other topics related to the public safety broadband roll-out including:

- State and Local Implementation Grant for Planning (SLIGP): What is it and what it covers?
- FirstNet's steps to design and build the NPSBN and where Texas is in that process?
- What opportunities may lay ahead for the private sector?

To register for the webinar, click here.
