

December 8, 2014

Austin, Texas – Due to the overwhelming response to the Texas Private Sector Update Webinar scheduled for December 17, additional registrations have been suspended. We will, however, be offering the same webinar again in January for those who miss the December 17th event. **Stay tuned!**

For those who did reserve a spot on the webinar, we are happy to let you know that **FirstNet State and Local Branch Chief Jeremy Zollo** will be speaking on the webinar to give an update on current FirstNet activities as well as plans for 2015.
